Creating New Users and Assigning them Roles

Note: Only AE Department heads are recommended to perform this action

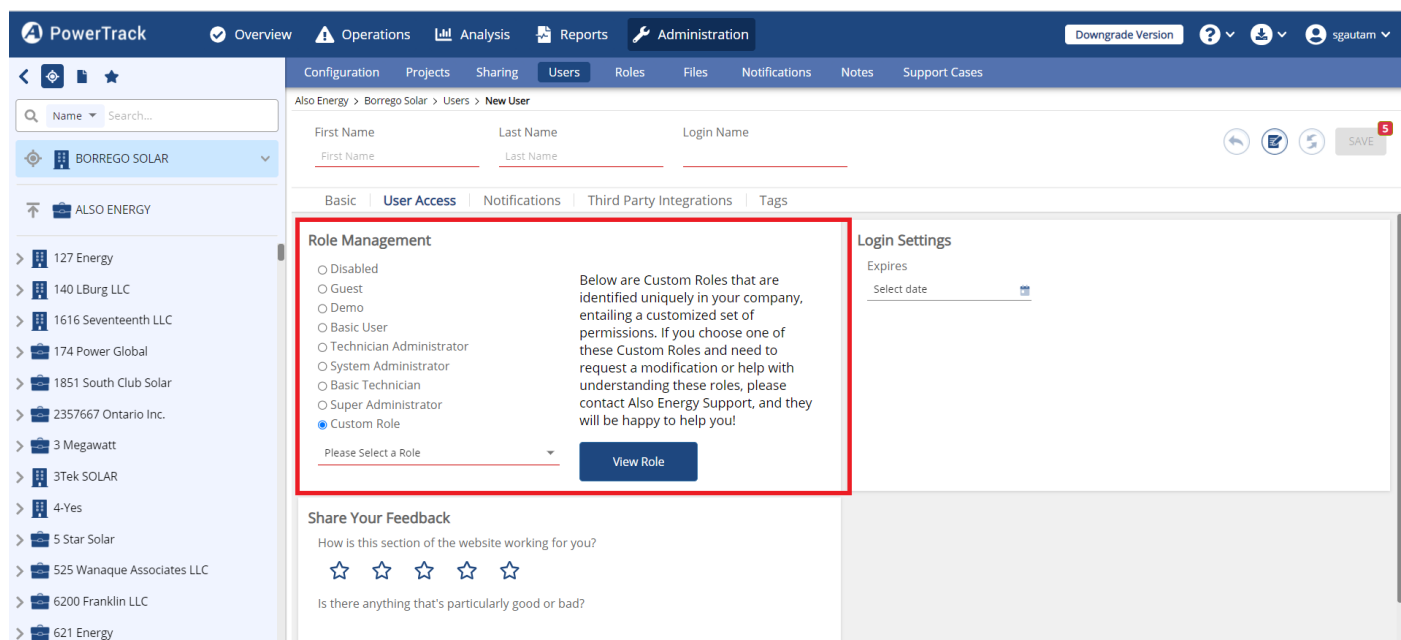

Navigate to the Customer Level where the new user is meant to be under and go to the Administration tab and go to Users. This page will show all current users that exist under that customer level and add a new user, click on the  icon :

The screenshot shows the PowerTrack interface with the 'Administration' tab selected. The 'Users' sub-tab is active, displaying a list of users for 'Also Energy'. The table includes columns for Name, Username, Role, Belongs To, Last Modified, and Edit. A search bar and a '+ Add User' button are visible at the top right of the table area.

Name	Username	Role	Belongs To	Last Modified	Edit
Aaron LaRoche	aaron	Disabled	Also Energy	3/24/2021, 1:20:51 PM EDT	
Aayush Sharma	asharma	Support Tier 2 L...	Also Energy	5/31/2021, 11:48:38 AM EDT	
Abayomi Dairo	dairoa	Basic User	Also Energy	1/15/2020, 12:31:21 PM EST

Adam Dawson	adamtest5	Support Admins...	Also Energy	4/9/2019, 2:12:27 PM EDT	
Adam Dawson	adamtest6	Support Admins...	Also Energy	1/18/2018, 4:39:21 PM EST	

This will lead you to this page

The screenshot shows the 'New User' form in the PowerTrack interface. The form is divided into several sections: 'Basic' (First Name, Last Name, Login Name), 'User Access' (Role Management), 'Notifications', 'Third Party Integrations', and 'Tags'. The 'Role Management' section is highlighted with a red box and contains a list of roles: Disabled, Guest, Demo, Basic User, Technician Administrator, System Administrator, Basic Technician, Super Administrator, and Custom Role. A 'View Role' button is also present. The 'Login Settings' section includes an 'Expires' field. A 'Share Your Feedback' section is at the bottom.

Role Management

- ☐ Disabled
- ☐ Guest
- ☐ Demo
- ☐ Basic User
- ☐ Technician Administrator
- ☐ System Administrator
- ☐ Basic Technician
- ☐ Super Administrator
- ☒ Custom Role

How is this section of the website working for you?

☆☆☆☆☆

Is there anything that's particularly good or bad?

In order for the user to be saved, it requires the user's First and Last name to be entered along with the Login Name and the Email Address (found on the Basic tab) as well as selecting a Role for the user in the dropdown. The Save button will not be available to be clicked on until all the criteria are met. There will be helpful information given if you hover over the Save button to let you know what is missing before being able to save:

How to change permissions in a role affecting all users in that role

Note: Only AE Department heads are authorized to perform this action

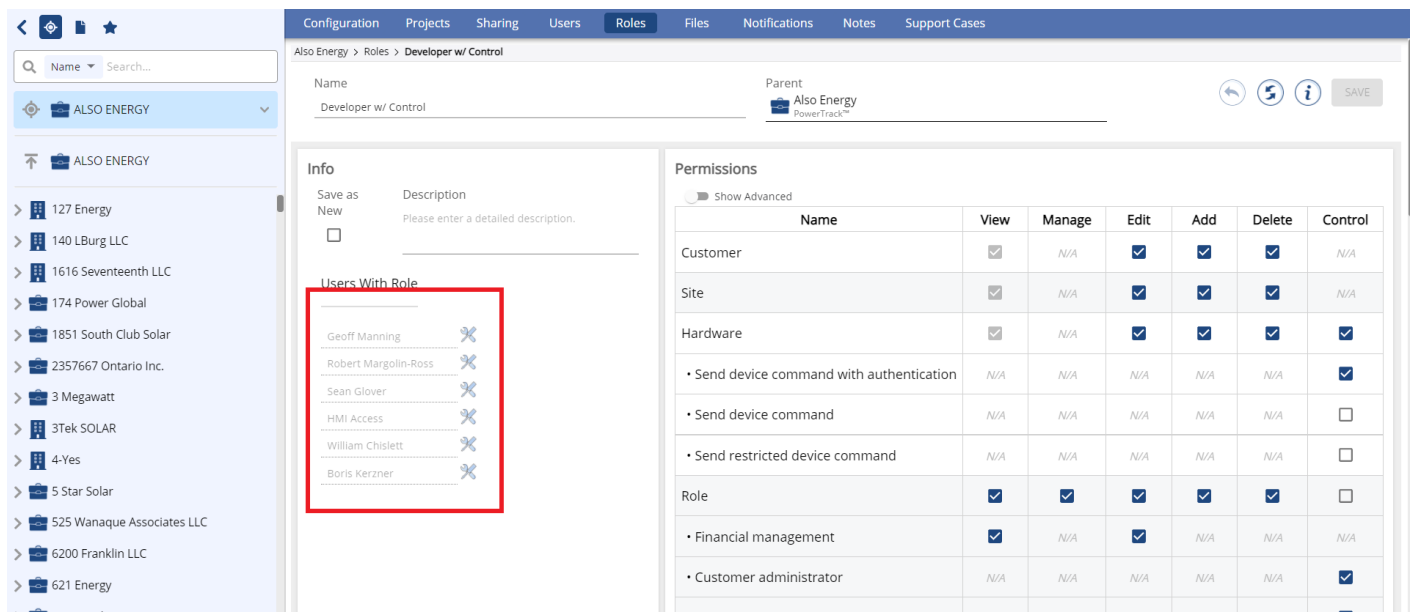

For times when an established Role needs to have its permissions altered to make changes to the users that already assigned that Role, that can be done on the Administration > Roles

For example, I see that 6 users are assigned the Developer w/Control Role based on the User Count column on the Administration > Roles page:

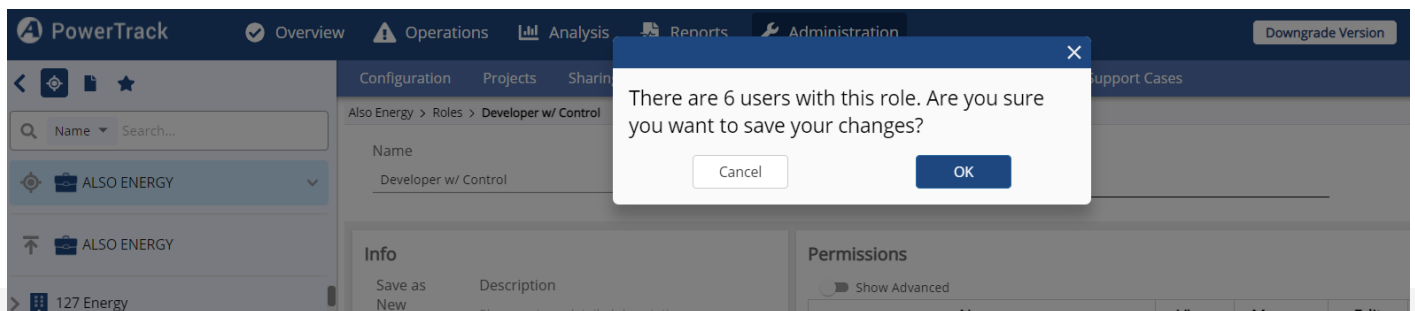

Name	Description	User Count	Last Modified	Edit
Data Configuration Specialist w/ Control		1		
Data Configuration Specialist w/ Sharing		2		
Developer		1		
Developer w/ Accounting		1		
Developer w/ Control		6		
Developer w/ Device Configuration		4		
Developer w/ Elevated		1		
Developer w/ Finance		27		
Developer w/ Restricted Control		3		
Developer w/ Sharing		1		

If I were to click on the wrench icon on the Edit column, I would be taken to the Roles configuration page for the Developer w/Control Role where I can see all 6 users listed on the left:

Name	Description	View	Manage	Edit	Add	Delete	Control
Customer		<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N/A
Site		<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	N/A
Hardware		<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
• Send device command with authentication		N/A	N/A	N/A	N/A	N/A	<input checked="" type="checkbox"/>
• Send device command		N/A	N/A	N/A	N/A	N/A	<input type="checkbox"/>
• Send restricted device command		N/A	N/A	N/A	N/A	N/A	<input type="checkbox"/>
Role		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
• Financial management		<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>	N/A	N/A	N/A
• Customer administrator		N/A	N/A	N/A	N/A	N/A	<input checked="" type="checkbox"/>

If I were to make a change on this page if I hit save, I am prompted to verify that the change I'm making would be okay to affect all 6 users:
